

PRODUCT TECHNICAL DATA SHEET

L.T.R.

Low Temp Rinse

RECOMMENDED USE:

Not for hand-feed use, nor for use in household style machines. For low temperature dishwash systems (140C - 160C). Use with the Precision Warewash Dispensing System calibrated by your representative.

DIRECTIONS:

Electronically metered into final rinse water. For effective operation refer to equipment manufacturer's specification manual and consult your representative for program details.

FEATURES:

Produces and maintains consistent sparkling wares.

A blend of low foaming surfactants and unique sequestering agents.

It reduces surface tension and breaks down water droplets allowing for accelerated "spot free" results.

Concentrated for Economy.

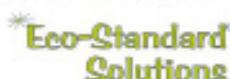

TECHNICAL SPECIFICATIONS:

Shelf Life:	2 Years
Acids:	None
Alkali:	None
Fragrance:	None
Colour:	Blue
Effective Temperature Range:	0-40 C°
Packaging:	4 L, 20L, 205L
Product Number:	920
pH:	9
Freeze Thaw:	0 Cycles
